

Logitech® USB Desktop Microphone

Digital audio • Noise-canceling microphone • USB

Experience plug-and-play convenience and enhanced digital audio quality with the Logitech USB Desktop Microphone.

No drivers to download and no worries... that's easy plug-and-play, and that's what you get from the Logitech USB Desktop Microphone. You also get true digital quality and a noise-canceling technology to filter out unwanted background noise and deliver better voice recognition, better voice command, better voice recording, and more. Sleek, compact, and attractive, it's perfect for any desktop.

- Advanced digital USB provides superior clarity
- The simplicity of a single plug-and-play connection
- Noise-canceling microphone filters out unwanted background noise
- Power switch illuminates when microphone is active
- Microphone pivots on weighted, stable base to hold preferred position
