

PureSource 2 Replacement Ice & Water Filter (WF2CB)

FRIGIDAIRE

The Frigidaire WF2CB PureSource 2 Replacement Ice & Water Filter improves upon the already stellar design of the PureSource water filter. It provides excellent tasting water and ice, and works to remove water contaminants, including cysts, particulates, lead, mercury, herbicides, and pesticides. The exterior casing is a strong white plastic cassette designed to be long lasting. The PureSource 2 Water Filter is compatible with Frigidaire refrigerators designed to work with the following water filters: WF2CB, SWF2CB, FC-100, FC100, and NGFC 2000. PureSource 2 replacement water filter

- PureSource 2 replacement water and ice filter
- Convenient and easy-to-install
- Cleans tap water going into the ice maker and water dispenser of select Frigidaire refrigerators
