Charging the headset

You must charge the headset fully before using the headset for the first time.

1. Connect the USB charging cable to the USB charge port of the headphone.
2. The light indicator will turn into red when charging.
3. The full charge takes about 2.5 hours.
4. The red light indicator goes out and turn into green when charging completed.

Low-Voltage alert: When the indicator turns into red and alert tone "battery low" sounds indicate that the battery has run out, need to charge as soon as possible.

Power on/off the headset

Power on: Press the multifunction button about 3 seconds until the green indicator flash. You will also hear the indication voice "Power On".

Power off: Press the multifunction button for about 3 seconds until the red indicator light flash and then goes off. You will also hear the indication voice "Power Off".

Pair to your Smartphone

1. Press the multifunction button for about 5 seconds until the red and green lights start flashing alternately.
2. Turn on the Bluetooth function of your phone.
3. Search for the Bluetooth devices and select "Mpow Cheetah"
4. Enter the code "0000" if needed.
5. If pairing is successful, the green light indicator starts flashing. You will also hear the indication voice "Your headset is connected."

Remark:

1. Please make sure the headphone is off before pair.

2. It will connect to the pre-set phone automatically when turns on. (Please make sure the Bluetooth function of your phone is on.)

Connect two Bluetooth devices at the same time

1. Pair the Bluetooth headphone to the first phone.
2. After pair successfully, turn off the headset, and also disable the Bluetooth function of the first phone.
3. Pair the Bluetooth headphone to the second phone.
4. After pair successfully, turn on the Bluetooth function of the first phone. Select the "Mpow Cheetah" and click "connect".
5. Two phones will both connect the headphone at the same time.
