

AccuPark™

Garage parking made easy!

- Easy to install
- Made of a durable UV-stabilized resin
- Never miss your mark

Instruction:

1. Park vehicle in desired location, making sure it is clear of all doors, objects, etc.
2. Position AccuPark™ next to your tires without removing backing from tape.
3. Mark the floor where the AccuPark™ is to be located.
4. Move vehicle away from AccuPark™ location and thoroughly clean and dry the area.
5. Remove backing strips from AccuPark™ and apply to clean floor.
6. Firmly apply pressure to AccuPark™.
7. Allow adhesive tape to cure for 24 hours before parking your vehicle against AccuPark™.
