SAFETY PRECAUTIONS
Before using your Bluetooth Keyboard, please refer to the following safety information:

1. Do not expose the keyboard to water or other sources of moisture. The keyboard contains an integrated lithium ion battery.

2. Do not use the keyboard while operating a motor vehicle.

3. Do not use the keyboard while inside an aircraft. The keyboard emits high frequency energy which can interfere with the instruments inside an aircraft.

4. Do not use the keyboard in areas where flammable gases or fumes are present.

5. Do not point the keyboard's laser at another person or yourself.

6. Bluetooth wireless technology allows for remarkable performance. The device does not show up when presented to allow you to easily control your multimedia library with the instruments inside aircraft.

7. Bluetooth wireless technology allows for remarkable performance. The device does not show up when presented to allow you to easily control your multimedia library.

8. The battery may need to charge the device for the optimal range of the receiver.

9. The device may not be moved erratically.

10. Some letters do not show up when presented to allow you to easily control your multimedia library.

11. The USB port may not charge.

12. There may be dust or dirt within the optimal range of the receiver.

13. The device may not be turned off.

14. The battery may need to charge the device for the optimal range of the receiver.

15. The device may not be moved erratically.

16. Do not disassemble the keyboard or replace the internal battery. Solvents and other cleaning agents may cause damage to the keyboard.

17. Do not attempt to disassemble the keyboard or replace the internal battery.

18. Do not use the keyboard while operating a motor vehicle.

19. Do not expose the keyboard to water or other sources of moisture.

20. Do not use the keyboard in areas where flammable gases or fumes are present.

21. Do not point the keyboard's laser at another person or yourself.

22. The integrated LED backlight allows for easy use in low light situations. The touch pad can be flipped for use when the keyboard is held either vertically (like a remote control), or horizontally.

23. Bluetooth wireless technology allows for remarkable performance from a device smaller and slimmer than many TV remote controls.

INTRODUCTION

The FAVI FE02BT keyboard is a fully functional Bluetooth keyboard with touchpad mouse combination that easily fits inside your pocket.

The FE02BT is a stylish and versatile accessory complete with a built in laser pointer, the FE02BT is compatible with any device that supports Bluetooth internally or via external adapter.

The FE02BT is a companion solution for presentations, gaming, HTPC control, mobile device control, lectures, and classroom teaching. The integrated LED backlight allows for easy use in low light situations. The touch pad can be flipped for use when the keyboard is held either vertically (like a remote control), or horizontally.

Bluetooth wireless technology allows for remarkable performance from a device smaller and slimmer than many TV remote controls.

WHAT’S IN THE BOX

1x Bluetooth Keyboard
1x Bluetooth receiver (located in keyboard backcover)
1x Charger battery (located in the keyboard backcover)
1x mini USB charger
1x User Guide

SPECIFICATIONS

- Measurements: L x W x H: 6.2 x 2.4 x 0.5 inches
- Weight: (grams) 100g / 0.22 pound
- Operational Range: up to 10 meters/ 30 feet
- Transmitting power: 4dB Max.
- Operating voltage: 3.3V
- Operating current: ≤ 80mA
- Charging current: ≤ 300mA
- Sleep current: ≤ 1 mA

DEVICE REQUIREMENTS

- Operating system with Bluetooth keyboard support
- One free standard USB 1.1 or 2.0
- Touchpad mouse
- Laser pointer button
- Android function keys
- Multimedia keys

MAINTENANCE

- Do not attempt to disassemble the keyboard or replace the internal battery. Doing so will void your warranty.
- Charge the battery before using the keyboard. If the keyboard is not used for a long period of time, the battery will lose some of its charge.
- Do not expose the keyboard to extreme temperatures. Extreme temperatures will shorten the battery’s life span.
- Do not expose the keyboard to extreme temperatures. Extreme temperatures will shorten the battery’s life span.
- Use only a damp cloth with a mild detergent to clean the keyboard. Solvents and other cleaning agents may cause damage to the keyboard.

- Use only a damp cloth with a mild detergent to clean the keyboard. Solvents and other cleaning agents may cause damage to the keyboard.
- Use only a mini USB cable to charge your device. Other chargers may overcharge the internal battery and shorten the battery’s lifespan.
**Product Overview**

1. **Bluetooth:** The keyboard can be used with any device that supports Bluetooth keyboards via internal Bluetooth radios, or support the supplied USB Bluetooth radio. To activate Bluetooth on the keyboard, press and hold the Bluetooth button (see “Product Overview”) for 5 seconds or until the Bluetooth light flashes.

2. **Touchpad:** The touchpad can be used as an alternative to a mouse. It works in conjunction with the Bluetooth keyboard.

3. **Backlight:** Use the backlight feature to see the current status of the keyboard.

4. **Presentation Keys:** To activate laser pointer, hold the laser pointer button on the keyboard.

5. **Status Indicators:** Indicator lights allow users to see the current status of their keyboard (see “Product Overview”) 2) to determine if the keyboard is charging or in sleep mode.

6. **Android Hot Keys:** Android hot keys allow users to easily navigate through an Android interface.

7. **Auto Sleep:** This keyboard can be used with any device that supports Bluetooth keyboards.

8. **Auto Wake:** When the keyboard is connected to a computer, it will wake up the computer.

9. **Page Up and Page Down Buttons:** To exit sleep mode, press the Page Up or Page Down button.

10. **Auto sleep:** When the keyboard is not used for a long period of time, the battery will lose some of its charge. If the keyboard is not used for more than 15 minutes, it will turn off. Charge the device for at least 15 minutes. Check the power switch.

11. **Sleep Current:** < 1mA

12. **Operating Current:** < 80mA

13. **Range:** Up to 10 meters/30 feet

14. **Power Supply:** Battery (located in the keyboard back cover)

15. **Dimensions:** 6.2 x 2.4 x 0.5 inches

16. **Weight:** 0.24 lbs

17. **Operating Temperature:** 32°F - 122°F

18. **Humidity:** 10% - 80%

**Troubleshooting**

**If you are having any issues using your device, please refer to the guide below before contacting us.**

**Problem:** The device does not respond.

**Solution:** Charge the device for at least 15 minutes. Check the power switch. Allow the device closer to the receiver. Clean the touchpad with a damp cloth.

**Problem:** The device is too weak.

**Solution:** Move the device closer to the receiver. Move the device closer to the optimal range of the receiver. There may be dust or oil on the touchpad. Please fully charge device before operating it for the first time.

**Problem:** The USB port may not be active.

**Solution:** Try a known working USB port. The USB cable may be damaged or defective.

**Problem:** The USB cable is damaged or defective.

**Solution:** Try a known working mini-USB cable. For additional support, contact: techsupport@favientertainment.com

**Safety Information:**

- Do not expose the keyboard to extreme temperatures. Extreme temperatures may cause the keyboard to be active.
- Do not expose the keyboard to extreme humidity. Do not use the keyboard in a moisture-rich environment.
- Do not put the keyboard on top of heavy objects, such as books or hard drives.
- Do not use the keyboard while inside an aircraft. The device may be subject to outside wireless signals.
- Do not use the keyboard while inside a hospital. The device may be subject to outside wireless signals.
- Use a microfiber cloth for cleaning the touchpad. Do not use any type of abrasive or oil on the touchpad.

**Device Requirements**

- To utilize the Touchpad function, a device must support Bluetooth keyboards.
- To utilize the Page Up or Page Down button, a device must support Bluetooth keyboards.
- The device may not be recognized by the receiver.
- The device may not be recognized by the receiver in a hospital.
- The device may be subject to outside wireless signals.
- The device may move erratically within the optimal range of the receiver.
