■: Compatible

X: Not Compatible (Image circle will not cover sensor)

☒: Mount Not Available

- 1: "D" Compatible.
- 2: AF motor is not built into lens. Lens functions only in manual focus mode when used with Nikon bodies without AF motors, e.g. D40, D40X, D60, D3000 series, D5000 series, etc.
- 3: No AF Motor in body. Requires AF motor in lens for AF function.
- 4: Sony NEX and "Mirrorless" Alpha models use Sony E-mount interchangeable lenses. Use of the Sony A-mount adaptor may permit use. Some use limitations may exist. Tamron's Sony "E" mount lenses will fit and function on Alpha A-7 series models with some limitation, as these lenses were designed for APS-C Sensor size NEX and Alpha models.
- 5: Nikon 1 models use 1Nikkor-mount interchangeable lenses. Use of Nikon FT1 mount adaptor may permit use. Some limitations may exist.
- 6: Canon EOS-M uses Canon STM mount interchangeable lenses. Use of Canon EF-EOS M mount adapter may permit use. Some limitations may exist
- 7: Tamron Di-III currently designates lenses for Sony E-mount for NEX model "mirrorless" ILC cameras AND Canon EOS-M ILC Cameras AND Micro Four Thirds Cameras from Olympus, Panasonic and others.
