PT-1230PC – for your home or home office

Plug & Label™ Technology ... It's easy.

P-touch® PC-connectable label makers – with Plug & Label™ functionality – will have you making professional looking labels – with text and graphics – in minutes.

Just connect to your desktop or notebook PC via the included USB cable to get started. No software installation is required because the easy-to-use software is pre-loaded on the label maker. That means when you're done, simply turn it off and unplug. There's nothing left behind on your PC.

Creating labels is a snap. Use any of your PC's installed TrueType® fonts. Import graphics like logos and symbols from your PC. Make and print almost any label that you can imagine. You can also save your label designs to your desktop for future use.

Plus, using your PC's mouse and keyboard makes typing and designing your labels easier than ever.

PT-1230PC

▼ Claims that adhesive is "acid-free" and/or "photo-safe" are based upon: 1. Satisfactory test results obtained from Photographic Activity Tests per ISO 14523 and non-acidic pH Tests per TAPPI 509; 2. Certifications from material manufacturers; and 3. Atomic scans of adhesive following removal of backing paper. Data from independent tests performed at the Image Permanence Institute at Rochester Institute of Technology. ▲ Additional purchase required.
