

SDVD9805 – HOW TO

How to watch the same video on the both screens.

- Connect one end of the the Audio/Video cable to the AV OUT jack of Unit A and the other end to the AV IN of Unit B (Both players are identical so you can use either unit as A or B)

(See illustration below)

- Ensure pins are fully inserted on both ends. A humming sound may occur if pins are not inserted correctly.
- Play DVD on unit A. Then point the remote control to unit B and press the **SOURCE** button on the remote to select AV IN, Video from unit A will then be displayed on unit B.
