User Manual

Ear Hooks

Cable Clip

Charging Cord

Ear Tips

## JUST CHARGE IT

Charging the earbuds is so easy you've probably figured it out by now, but just in case, you've got two options: You can charge them using your computer or a wall outlet.

1. The cord that came with the earbuds—the one with the USB on one end and the Micro USB on the other—is made to work with your computer.

2. If you want to use the wall outlet, you'll need to pick up a power cord with a Micro USB the next time you're at the store, or use any USB AC adapter, including the one for your cell.

Plug it in and your earbuds will be ready for an epic night in no time. You should go get ready too! They need about 3 hours for 6 hours of party time.

## CONTROL YOUR DESTINY...OR AT LEAST YOUR EARBUDS

1. This is the power button, press and hold for 2–3 seconds to power on.
2. Push it to play, push it again to pause.
3. Turn the music up. (Press and hold for 2 seconds to skip to next track.)
4. Turn the music down. (Press and hold for 2 seconds to move to previous track.)
5. The power cord goes here.
6. This light lets you know when Bluetooth is paired with your earbuds.
7. Check out how much juice is in the battery.
8. Cable clip to adjust strap.
9. Smart magnetic connection – keeps your earbuds together when not in use.

## FEATURES:

## ALLOW US TO SHED SOME LIGHT

	What It Looks Like	What It Means
CHARGE	Flashing Red	Low Battery
	RED (when plugged in)	Charging
	LED OFF (fully charged)	Ready to Party
Bluetooth	Quick Flash BLUE/RED	Pairing Mode
	Slow Flash BLUE	Connected

## BLUETOOTH® CONNECTION: IT'S A SETUP

Like any amazing couple, this one starts with a connection —one between your device and the earbuds' Bluetooth.

Here's how it works:

1. We know you're probably going to think, "derp" with this one, but we have to say it: Make sure the smartphone, tablet or computer you want to hook up to the earbuds has Bluetooth. (There. We got that out of the way.)
2. Turn on the earbuds and look for the little blinking light.
3. Do whatever your device needs you to do on its end. (We don't know what you're using. We're not spies.)
4. Look for Jam Transit Buds in your device's Bluetooth list or click YES—whatever pops up on your device—and BAM! you're connected.
5. Now hit PLAY on your earbuds and crank it up—or down if you're lame.

You're probably only going to have to do this once, unless your device goes through a major I-just-dropped-it-in-the-pool kind of reboot. The device and Bluetooth will find each other every time just as long as the earbuds are set to Bluetooth and your device's Bluetooth is, you know—on.

If you're connecting to a computer, you may have some extra steps on that end. You'll have to get that information from the computer company.

Depending on your device you may be prompted to enter a pairing code. If prompted enter “**0000**” as the code.

If you are having trouble pairing, you can manually enter pairing mode. Just press and hold the power button for 5 seconds when the Transit Buds are powered off.

**Note:** If you turn on your Transit Buds but haven't started the party, they will automatically power off after 2 minutes of inactivity.

## HELLO? SPEAKERPHONE? YES!

---

When friends call to interrupt your party of one—and you know they will—answer the phone without disconnecting from your Jam Transit Buds. Yes, that's right. Your earbuds are a speakerphone too. How amazing is that?

1. Make sure your phone and earbuds are connected through Bluetooth.
2. Answering and ending a call works the same way: simply click the PLAY/PAUSE button on your Transit Buds.
3. If you'd rather not talk, hold down the PLAY/PAUSE button on your Transit Buds for three seconds to ignore the call.

**THE COOLEST PART:** Transit Buds know when a call is coming in and pause the music before ringing. When you hang up, music starts where it left off—and so does the party. If it's you making the call, just start dialing from your phone, and Transit Buds automatically do their hands-free thing. Isn't it refreshing to know your earbuds totally get you?

Note: If your Transit Earbuds are connected to a smart phone, you can talk to Siri (or any other voice control assistant). Just hold down the PLAY/PAUSE button and Voilà!

## THE PERFECT FIT

1. Put the buds in your ears with the strap behind your neck (trust us, no one looks good with the strap in front) to see if the length is comfortable.
2. If the fit is too loose or too firm, adjust strap by placing tension on the portion of the strap that is to the left of the cable clip. Do that and a loop will magically form in the middle of the cable clip. Now, pull the strap in a downward motion on the right side of the cable clip. Not too hard, or you'll pull the buds out of your ears! Continue with this process until the strap is the length you want and feels good.

## LITTLE BIT OF SWEAT? NO WORRIES.

The smart folks who made these earbuds designed them to keep the party going through just about any activity (they call it IPX4). But hey, those designers aren't miracle workers. Doing something like sending your speaker for a swim in the deep end will, at some point, fill those holes you need for incredible sound with water-and that's just not going to bode well for anyone or anything.

Working out? Not a problem. These earbuds are totally sweat proof! But, remember to keep the top flap flush with the earbuds for the best protection.

## COMING CLEAN

A soft, dry towel is all you need to clean off your earbuds. Using water, harsh cleaners or anything else only starts messing with the mechanics inside. So, yeah, don't do it.

## STUFF THE GOVERNMENT MAKES US SAY

### FCC DISCLAIMER:

**Note:** This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Note:** Changes or modifications not expressly approved by HMDX could void the user's authority to operate this equipment.

## ONE YEAR LIMITED WARRANTY

To obtain warranty service on your Jam product, contact a Consumer Relations Representative by telephone at 1-888-802-0040 or email [cservice@jamaudio.com](mailto:cservice@jamaudio.com) for assistance. Please make sure to have the model number of the product available. Representatives are available 8:30am - 7:00pm EST Monday-Friday.

## STUFF OUR LAWYERS MAKE US SAY

---

### IMPORTANT SAFEGUARDS:

When using an electrical product, basic precautions should always be followed, including the following:

### READ ALL INSTRUCTIONS BEFORE USING

- **WARNING:** Listen responsibly. To avoid hearing damage, make sure the volume on your device is turned down before connecting earbuds. After placing earbuds in your ears, gradually turn up the volume on Transit until you reach a comfortable listening volume.
- Use this product only for its intended use as described in this manual. Do not use attachments not recommended by HMDX.
- HMDX is not liable for any damage caused to Smartphones, iPod/MP3 player or any other device.
- Do not place or store this product where it can fall or be dropped into a tub or sink.

- Do not place or drop into water or any other liquid.
- Not for use by children. THIS IS NOT A TOY.
- Never operate this product if it has a damaged cord, plug, cable or housing.
- Keep away from heated surfaces.
- Only set on dry surfaces. Do not place on surface wet from water or cleaning solvents.

## A MESSAGE FROM THE ENVIRONMENT

---

### **WARNING:**

This product has an internal, non-replaceable lithium battery.  
Please dispose in accordance with your local state, province and  
country guidelines.

This product contains small parts that may present a choking  
hazard for young children.

### **CAUTION:**

All servicing of this product must be performed by authorized  
HMDX Service Personnel only
