Warranty Basics

Original Equipment and Replacement Tires

Original Equipment Tires are defined as tires supplied as original equipment by the vehicle manufacturer on new vehicles. Original Equipment tires are backed by Workmanship and Materials coverage. The PTNA Limited Treadwear warranty does not apply to Original Equipment tires. Replacement Tires are defined as tires mounted to your vehicle after the Original Equipment tires have been removed. Replacement Tires are backed by both Workmanship and Materials and PTNA Limited Treadwear coverage as defined in this document.

Tire Registration
Please request your dealer register your replacement tires, provide you with a registration card, or go to www.us.pirelli.com to register your tires on line. In case of a tire recall, we can reach you only if we have your name and address. You must register your tires to be on our list.

**What Is the Adjustment Policy and For How Long?**

If a Pirelli tire becomes unserviceable due to workmanship or material anomalies during the initial warranty period, which is one year from the date of original retail purchase of the vehicle or purchase of replacement tires (purchase receipt required) or within the first 2/32” of the original usable tread, whichever occurs first, the tire will be replaced with the same or comparable tire at no charge to the owner. To receive consideration for warranty coverage, tires must be returned to a PTNA authorized dealer. Tire Inspection Personnel designated by PTNA make the final determination regarding qualification for Workmanship and Materials and Limited Treadwear coverage on tires submitted to Pirelli via an authorized Pirelli dealer. If the tire is presented for ride related anomalies the warranty period is one year from the date of original retail purchase of the vehicle or purchase of replacement tires (purchase receipt required) or within the first 2/32” of the original usable tread, whichever occurs first. The owner must pay for any associated service charges, including costs associated with mounting and balancing in both the aforementioned cases.

After the initial warranty period, if a Pirelli tire becomes unserviceable due to workmanship or material anomalies the owner must pay the cost for a comparable new Pirelli brand or PTNA private brand replacement tire on a pro-rata basis. The authorized Pirelli Dealer will determine the cost by multiplying the percentage of the original usable tread worn by the current dealer selling price. The owner must pay for any associated service charges, including costs associated with mounting and balancing of the tire.

A tire has delivered its original usable tread life and is considered 100% worn when the treadwear indicators (2/32” tread remaining) become visible regardless of age or mileage.

**Pirelli Confidence Plus Program**

Select Pirelli tires are covered by a 30 day trial period. At any time during the 30 day period if you are not satisfied with your new tires, qualifying tires with the original sales receipt may be returned to the dealer from which they were purchased and may be exchanged for a set of Pirelli tires for equal or lesser value. Visit www.us.pirelli.com for details regarding terms and conditions.

Special Warranty Information

Road Hazard Policy for Run Flat Tires Only

Pirelli Run Flat tires are manufactured with technology that allows limited low inflation operation in the event of sudden loss of pressure. Pirelli does not recommend the repair of run flat tires and as a result, Pirelli provides road hazard coverage on all Pirelli produced tires that are manufactured with run flat technology. To qualify for Run Flat Road Hazard coverage, a completed claim form along with the tire exhibiting the road hazard must be returned to Pirelli through an authorized Pirelli dealer.

If a Run Flat tire becomes unserviceable due to workmanship or materials anomalies or road hazard injury during the initial warranty period, which is one year from the date of original retail purchase of the vehicle or purchase of replacement tires (purchase receipt required) or within the first 2/32” of the original usable tread, whichever occurs first, the tire will be replaced with the same or comparable tire at no charge for the tire to the owner. After the initial warranty period, if a Run Flat tire becomes unserviceable due to workmanship or materials anomalies or road hazard injury, the owner must pay the cost of a comparable new Pirelli brand or PTNA private brand replacement tire on a pro-rata basis. The authorized Pirelli dealer will determine the cost by multiplying the percentage of the original usable tread worn by the current dealer selling price. The owner must pay for any associated service charges, including costs associated with mounting and balancing of the tire.

Pirelli "Seal Inside" Technology

Select Pirelli tires incorporate "Seal Inside" technology, a construction designed to stop the loss of air from a tire when punctured by an object. Providing the puncture does not compromise the structural integrity of the tire, a sealing material layer prevents possible air leakage in the event of a carcass puncture. The "Seal Inside" technology is not designed or intended to be a permanent repair, and is only meant to allow the consumer to go to a Pirelli dealer for an inspection to determine if repair or replacement is needed. Visit www.us.pirelli.com for more information.
