*1 Discs recorded and finalized on recording devices.

*2 For contents of recorded disc media from CDs for your personal use.

*3 Playability may vary depending on the contents, discs and quality of the recording.

*4 For BD-ROM /BD-R and DVD-Video via HDMI.

*5 This function is effective only when reproducing AVCHD data recorded with x.v.Color technology. The function cannot be used with BD-ROM or DVD-ROM discs. HDMI connection is required. x.v.Color is a registered trademark.

*6 CD sampling is done at 88.2 kHz. MP3 data can be re-mastered only on CD.

*7 Requires the device with the App installed and the home theater to be connected to the same home network.

*8 Requires broadband Internet service.

*9 To enjoy content, you will need to insert an SD card or USB flash drive (1GB or more of free space/ sold separately). Requires broadband Internet service.

*10 To enjoy video/photo contents on iPod/iPhone, please connect your home theater sound system with composite video cable to your TV.

*11 Excluding the projecting parts.
