

## CHECK YOUR PACKAGE CONTENTS

**D-Link Telephone Adapter**  
This will be referred to as the TA from this point forward.

**12V 1A DC Power Adapter**  
Using a power supply with a different voltage rating will damage and void the warranty of this product.

**Telephone Cord (Grey)**  
You can use this to connect your telephone to the TA.

**Ethernet Cable (Blue)**  
You can use this to connect your TA to your computer or router.

**Rubber Feet**  
You can use these on the bottom of your TA.

# Use this page if you have a Single PC connected directly to a cable modem

- If you are using a home router, please see other side of this sheet.
- If you have a DSL modem, please see other sheet.
- If you have static IP (and for a description of static IP), see instructions on page 18 of the accompanying Telephone Adapter Install Guide.

## Step 1: Gather Information

Make sure you have the following information before you start your TA installation:

### AT&T CallVantage™ Service User ID

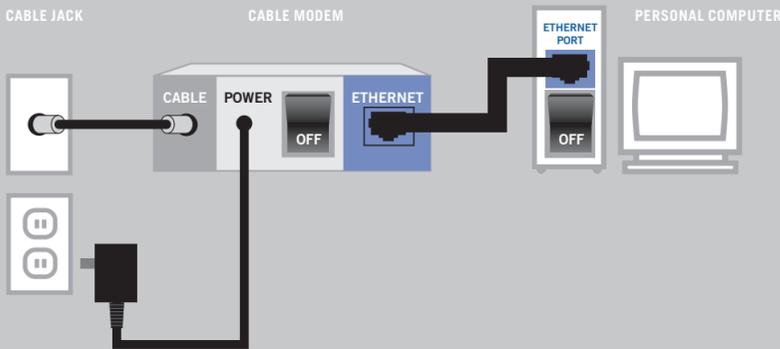

Your 10-digit AT&T CallVantage Service number (provided in your order confirmation e-mail)

### AT&T CallVantage Service Password

You were provided or selected this when you ordered the service; if you forgot it go to [www.callvantage.att.com](http://www.callvantage.att.com) and click "Forgot your password?"

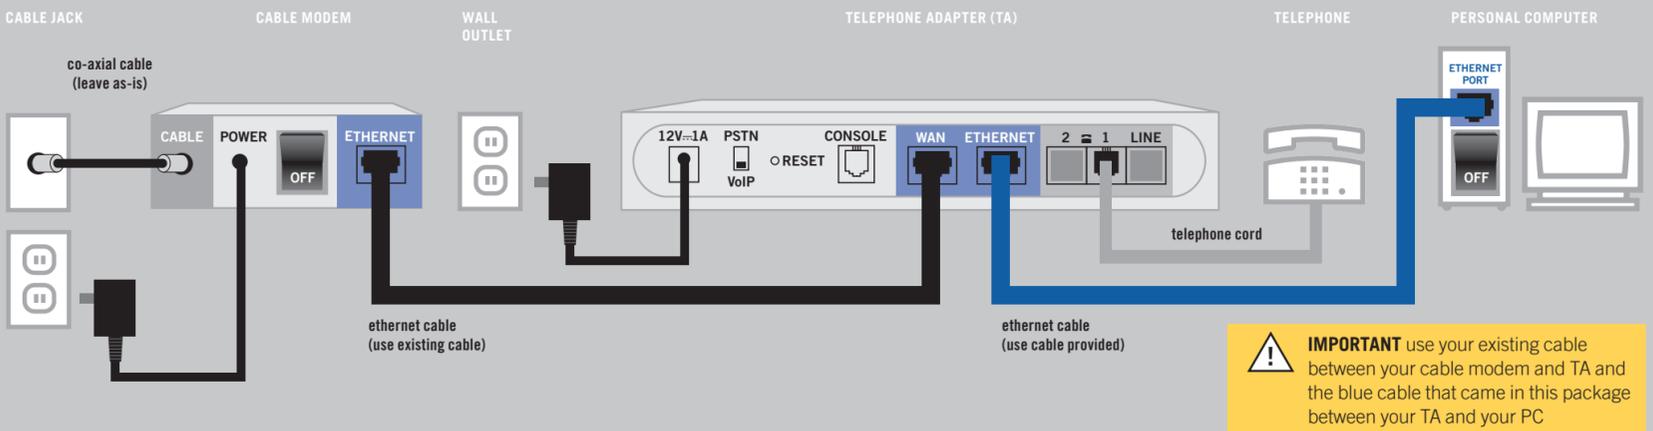

## Step 2: Shut Off All Equipment

**IMPORTANT!** Shut down and unplug each device separately (i.e., don't simply shut off your powerstrip) **!**

- Shut down your PC and set the power switch to your cable modem to "off"
- Unplug your cable modem
- Leave all equipment off for at least 5 minutes

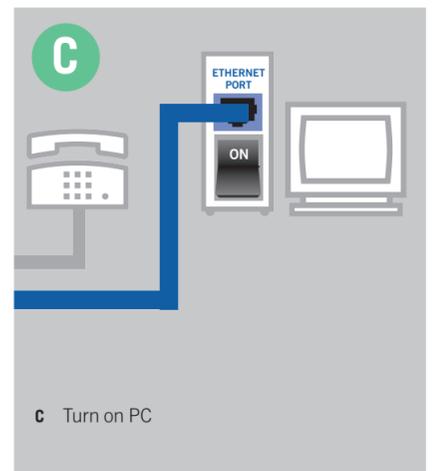

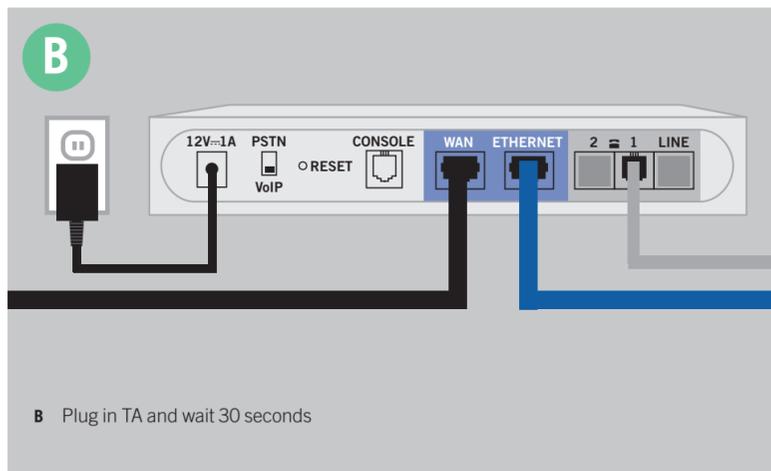

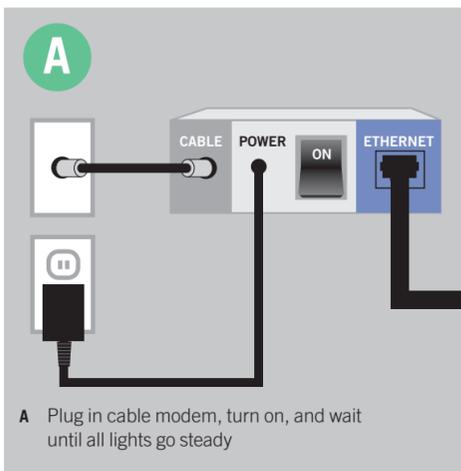

## Step 3: Connect Equipment

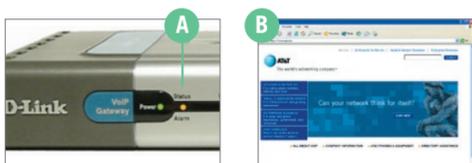

**IMPORTANT!** use your existing cable between your cable modem and TA and the blue cable that came in this package between your TA and your PC

## Step 4: Turn on Equipment in Order

**IMPORTANT!** You must turn on your equipment IN THE ORDER INDICATED for your service to work correctly **!**

## Step 5: Verify Your Connection

Verify that the status light on your TA is solid amber or blinking amber (A) and that you can browse to a known website (e.g. [www.att.com](http://www.att.com)) (B)

If you cannot browse or your status light is red, see Troubleshooting on page 21 of the Telephone Adapter Install Guide.

## Step 6: Activate Your TA

- Go to [www.callvantage.att.com](http://www.callvantage.att.com) and login using your AT&T CallVantage Service User ID and password
- Click the "Activate TA" button
- Follow the instructions on the screen
- When the online sequence is complete you should hear a clicking sound and single ring on the TA

## Setup complete

You can now make calls by dialing the 10-digit number from the phone connected to your TA and use the advanced features on [www.callvantage.att.com](http://www.callvantage.att.com).

If you experience any problems with the service, please refer to Troubleshooting, page 20 of the accompanying Telephone Adapter Install Guide.

Use this page if you have a

# Cable modem with one or more PCs connected via a home router

- If you do not have a home router, please see other side of this sheet.
- If you have a DSL modem, please see other sheet.
- If you have static IP (and for a description of static IP), see instructions on page 18 of the accompanying Telephone Adapter Install Guide.
