PastaCooker

With PastaCooker cook any kind of pasta in the microwave, the fastest and cleanest way. Cook, drain and serve in the same place.

Max. Capacity: 50 fl.oz.

INSTRUCTIONS:

1 Place the pasta inside the PastaCooker and cover with water.

2 Place the lid.

3 Cook in the microwave at 800W during the cooking time indicated on the package of pasta.

4 Times guide: dried pasta 8 min.; fresh pasta 4 min. Note that the cooking times and power may vary depending on the microwave.

5 Remove from the microwave by holding the base with a trivet.

6 Let sit for 1-2 minutes before opening the lid and check the cooking point. Be careful with the steam when opening the lid.

7 Turn over the lid and place on the base to drain.

8 Stir, season and serve.

RECOMMENDATIONS:

Check if the PastaCooker fits your microwave. Wash the product before its first use. Microwave and dishwasher safe. Do not use in the oven. Do not use the product directly over an open flame or heat source. Allow to cool for a few seconds after cooking. Do not use the grill position in the microwave. Do not use scouring pads or abrasive soap for washing. Do not use sharp objects.
