instructions & care

Congratulations on your purchase of the BPA Free Greenair SpaVapor+™
Please read the instructions and how to clean your unit carefully before using.

HOW IT WORKS

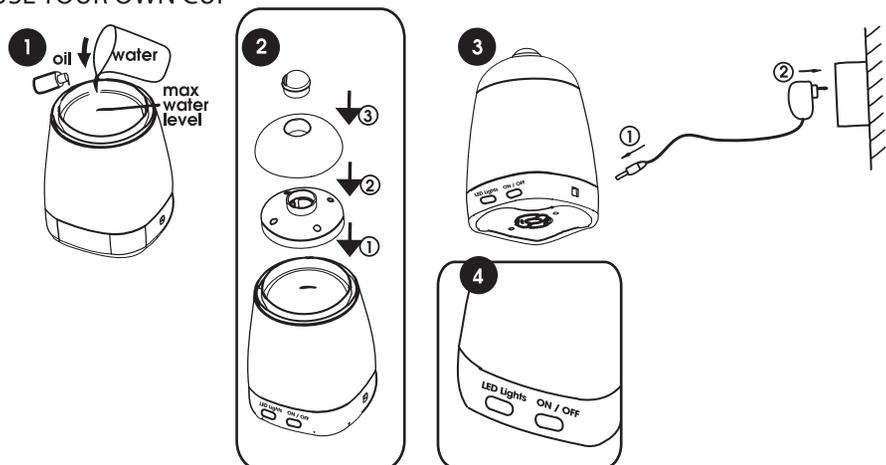

Our SpaVapor+ uses high frequency Ultrasonic technology that vibrates cool water inside the unit creating an ultra fine mist into the air. When essential oils are added, they are immediately dispersed into the air, providing immediate healthful benefits and helping to ionize the air. It can be used in a bedroom, living room, office area or anywhere you want to create a relaxing environment.

HOW TO USE IT

Our SpaVapor+ is so easy to use.

- Simply take off the dome, insert and directional cap.
 - Using your own cup, fill the base with luke warm (not cold) tap water.
 - DO NOT OVERFILL.**
 - Do not use distilled or purified/filtered water.
 - If desired, add about 5 or 6 drops of essential oils directly into the water.
- Replace the dome, insert and directional cap.
- Plug in your unit and turn it on. (The unit will automatically shut off when the water level gets too low.)
- That's it! Start enjoying immediate healthful benefits your diffuser provides!

USE YOUR OWN CUP

HOW TO CLEAN IT (every 10 hours of use)

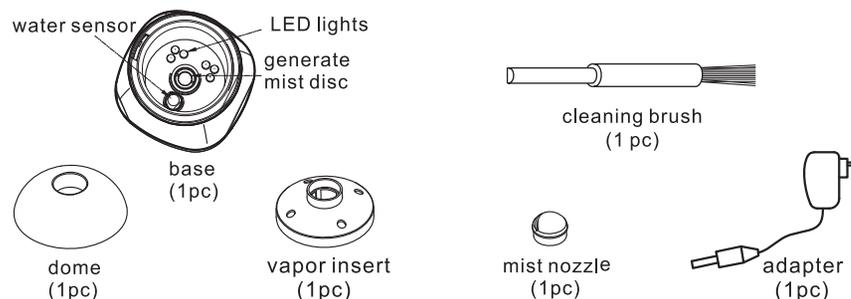

We recommend that you clean your SpaVapor+ after every 10 hours of usage. Oils are corrosive, and over time, they build up on the ceramic parts. To ensure a long life of your diffuser, follow these simple steps:

- Use equal parts natural vinegar and water. Use enough to cover the bottom inside the base. Let the mixture sit inside the base for 15-20 minutes to help break up the oils that may have accumulated on the ceramic discs inside the SpaVapor. Use the included brush to clean the mist disc (on the bottom middle) and the sensor in the bottom of the unit with the vinegar solution in the tank.
- Rinse with water. That's it!

The advantages of the SpaVapor+™:

- No heating
- No chemicals
- Fast acting, about 2 seconds
- 100-240V low voltage
- Energy Efficient
- 7.MHz high frequency electric vibration
- Automatic shut off when there is no water in chamber
- Interior, high efficiency fan diffuses fragrant essential oil into the room quickly for a healthier environment

WHAT'S INCLUDED

PRECAUTIONS

DO NOT USE DISTILLED WATER

Please read the instructions carefully before using.
Manufacturer accepts no liability for damage caused by incorrect use of the SpaVapor+™

⚠	1. Clean the machine and change the water after every use.
⚠	2. Shut off the power before cleaning
⚠	3. Use the original adapter provided by the manufacturer
⚠	4. If you don't use the device for a long time, unplug and pour water out
⊘	5. Never use steamed water. Never use corrosive solvent to clean product
⊘	6. Never touch water level sensor and avoid product hitting other objects
⊘	7. Never put your hand above the ceramic disc when product is working, as this could cause pain and damage the machine
⚠	8. Never wrap the adapter with a cloth or paper, etc. Otherwise, it cannot dissipate heat normally and may cause deformation and burn the membrane from a short circuit. Never touch the adapter with wet hands.
⊘	9. Do not use other liquids except for water & drops of essential or fragrance oils
⊘	10. Do not aim the device at walls, ceilings, furniture surfaces as excess steam could cause water damage.
⚠	11. Clean the device using white vinegar & water, then rinse with clean water
