

We deliver convenience!

How Water Delivery Works

- When you sign up for bottled water service, you will select the date of your initial delivery
- A Route Sales Representative (RSR) will arrive for your initial setup with your bottled water. At this time you will also agree on a designated spot for pickup of empties and drop off of full water bottles
- Your RSR will deliver every two weeks according to a designated schedule
- On your scheduled delivery day, leave your empty water bottles in the spot you have designated, so your RSR can exchange the empties for full bottles (even if you are not home on delivery day, you can still receive delivery service)

Bottled Water • Water Filtration • Coffee Service

DS Waters®...Quality delivered directly to your door.

Choosing DS Waters® brands has never been easier!

Choose Your Water Type

(Water types vary by location)

Spring Water

Direct from natural protected sources, our spring water is clean, fresh and delicious.

Purified Drinking Water

Our best selling water choice known for its crisp, clean taste.

Fluoridated Water

The same fresh, clean taste as our other water plus added fluoride, which may help prevent tooth decay.**

Distilled Water

Perfect for traditional distilled water uses, as well as low sodium diets.

Convenient Sizes

Choose from a wide selection of sizes, from economical 3 and 5-gallon bottles to convenient single-serve bottles by the case.

Now that you have your new water cooler, it is time to get water delivered straight to your door. Enjoy crisp, cool and refreshing water from these leading brands: Alhambra®, Athena®, Belmont Springs®, Crystal Springs®, Hinckley Springs®, Kentwood Springs®, Mount Olympus®, Nursery®, Sierra Springs® and Sparkletts®, brought to you by DS Waters®, one of the leading bottled water delivery companies in the United States.
