Emeril™ Cookware. Because You Care About The Way You Cook.

- With nonstick cookware, very little or no oils are required. Do not use aerosol cooking sprays in Emeril™ cookware. Sprays leave a gummy residue that is difficult to remove.
- For best long term results use plastic coated or wooden utensils. Metal cooking utensils such as spoons and spatulas are safe to use with the nonstick, however do NOT use sharp instruments like knives or appliances to cut, chop or whip foods. Such use can damage the nonstick finish and void your lifetime warranty.

Cleaning :

- Emeril™ cookware is easily cleaned with warm water and mild dishwashing soap using a sponge, nylon pad or dishcloth. Emeril recommends Soft Scrub® without bleach, Bon Ami® or Bar Keeper's Friend®.
- Do not use oven cleaners. Do not use steel wool. Do not use harsh detergents or cleansers with chlorine bleach.
- Like all hard anodized cookware, Emeril™ cookware is not dishwasher safe.

Emeril™ Cookware Lifetime Warranty:

From date of purchase, All-Clad guarantees to repair or replace any item found defective in material, construction or workmanship under normal use and following care instructions. This excludes damage from misuse or abuse. Minor imperfections and slight color variations are normal.
