

Whatever Your Labeling Need, We Have the Perfect Pen or Tool for You!

Complete collection of pens and tools that work on virtually all materials:

- Wet Surface Pen writes clearly on wet, greasy and other hard to mark surfaces. Use it under water, upside down and in the harshest of temperatures
- Tech Pens write on glass, metal, ceramics, plastics, paper
- The Glascribe® Pen has a tungsten carbide tip to easily inscribe on glass, ceramics, and plastic
- Belpen™ Markers contain permanent and quick drying ink that is waterproof and smudge proof
- Autoradiography Pens are excellent for marking substrates that are to be radiographed
- Captor™ Pen Holder keeps a pen handy and easy to uncap with only one hand
- Battery Powered Engraving Tool permanently engraves in seconds

Use the chart on the reverse side to see which marking tools are best suited to your surface.
