DB8 ANTENNA ASSEMBLY

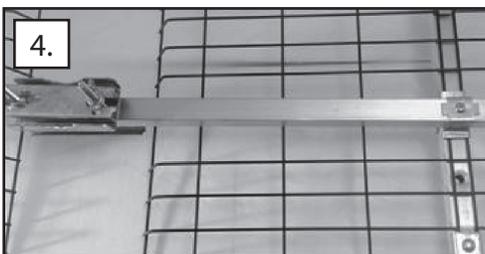

1. The DB8 comes with:
 - 2 reflectors
 - 2 sets of bowtie elements
 - Combiner bars with 75 ohm transformer
 - 4 sets of bolts with aluminum sleeves
 - 2 cross braces
 - 2 Mast clamps

2. Attach combining bars to the binding posts on the antenna (bow tie) elements. Tighten using supplied wing nuts. This electrically joins both halves of the antenna.

3. Left, both sets of elements joined with the combiner bars. The transformer is in the center.

4. Next, attach the cross braces to the rear of the reflector as shown using supplied bolts.
