INDURO

CARBON 8X

214

▪ INDURO. ROCK SOLID, NO MATTER WHAT – these are the perfect words to define the performance that today's Pros demand of Tripods, Heads and Support Accessories. ▪ And INDURO delivers with a wide and growing range of systems providing the fine construction, advanced features and elegant designs that Photographers want.

INDURO™

CARBON 8X C-Series tripods

INDURO CARBON 8X C-Series carbon fiber tripods offer the ultimate in strength, light weight, fast action, and reliable performance. They're ideal for Backpackers, Nature, Wildlife, Landscape, Photojournalists, Travel and On-location Photographers. C-Series tripods are made of the latest generation of high quality 8-layer carbon fiber tubing which is 60% stronger overall than conventional carbon fiber material. Each leg lock has a specially designed dust and moisture-resistant seal and each tripod includes interchangeable rubber feet and stainless steel spikes.

SUPERIOR STRENGTH. Latest generation high quality, 8-layer carbon fiber tubing.

DURABLE. Dust and moisture resistant sealed rubber grip leg locks.

FAST SETUP. Non-rotating leg sections and reversible grooved center column.

ALL TERRAIN. Interchangeable rubber and stainless steel spike feet.

EXTENDED CAPABILITY. Adjustable leg angles lock at 24°/55°/80°.

Grooved Center Column prevents unwanted column rotation

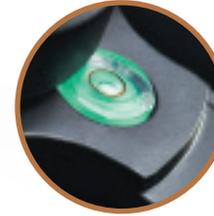

Tripod Head Set Screws add mounting security for tripod heads

Dust and Moisture Resistant Rubber Grip Leg Locks ensures a positive lock in any condition

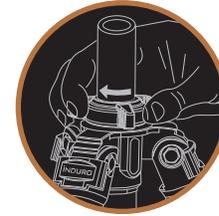

Built-in Bubble Level allows adjustment to prevent uneven pans and tripod head movements

Interchangeable Rubber and Stainless Steel Spike Feet provide the right contact on any surface or terrain

Reversible Center Column allows for low angle shooting

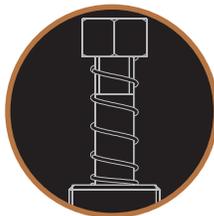

Reversible Tripod Head Mounting Screw assures compatibility with virtually any tripod head

Non-Rotating Leg Sections offer fast and easy setup

Spring Loaded Weight Hook allows additional weight mounting stability during windy conditions

Adjustable Angle Leg Locks accommodate uneven surfaces and awkward shooting situations

Closed Cell Foam Grip provides comfortable handling during cold or hot outdoor conditions

CARBONFLEX 8X CX-Series tripods

INDURO CARBONFLEX 8X CX-Series carbon fiber tripods offer extra flexibility with a quick-switch center column that's easily positionable from vertical to horizontal and just about anywhere in-between. The lightweight solution for Special Applications, Macro, Copy, Scientific, Industrial and Commercial Photography. CX-Series tripods are made of the latest generation of high quality 8-layer carbon fiber tubing which is 60% stronger overall than conventional carbon fiber material. Each leg lock has a specially designed dust and moisture-resistant seal and each tripod includes interchangeable rubber feet and stainless steel spikes.

VERSATILE. Multi-angle positionable center column provides extreme camera placement.

ALLOY 6M A-Series tripods

INDURO ALLOY 6M A-Series tripods are made from high quality aluminum alloy and are precisely machined to offer the quality and strength demanded by professional Studio, Student, Portrait, Advertising, Industrial and Wedding Photographers. A-Series tripods feature extruded 6000 series Aluminum legs with a wall thickness of 1.5mm. Each leg lock has a specially designed dust and moisture-resistant seal and most tripods include interchangeable rubber feet and stainless steel spikes.

SOLID STRENGTH. Precision machined, extruded 6000 series aircraft-grade aluminum alloy tubing.

DURABLE. Dust and moisture resistant sealed rubber grip leg locks.

FAST SETUP. Non-rotating leg sections and reversible grooved center column.

ALL TERRAIN. Interchangeable rubber and stainless steel spike feet (select models).

EXTENDED CAPABILITY. Adjustable leg angles lock at 24°/55°/80°.

Adjustable Manual Drag/Tension Control provides responsive adjustment to compensate for different camera/lens weights

Sliding Dovetail Quick Release Plate interchangeable QR system assures smooth and rapid camera changes

Independent 360° Pan Lock makes full or partial horizontal panoramic adjustments easy

Positive Locking Quick Release System patented dovetail lock combined with manual release provide extra security

SA-Series ballheads

INDURO SA-Series single action ballheads have been designed to ensure smooth movement and stable positioning. They include a dual quick release locking system and offer compact, lightweight camera support. All heads have 3/8-16 base mount.

DURABLE. High quality precision machined die cast aluminum alloy.

SMOOTH OPERATION. Precision machined ball provides stable positioning.

UNIFIED LEVER ACTION CONTROL. Single lever locks camera position and head rotation simultaneously.

DUAL LOCKING QUICK RELEASE SYSTEM. Provides safe and effortless rapid camera changes.
