OTC Family Of Battery Testers

3167 Sabre HP

Sabre HP is designed to let you quickly diagnose bad batteries in a discharged state without needing to charge them first. By utilizing a patented SPX micro load testing method, this tester ensures accurate test results without any interpretation on vehicle battery, starting and charging systems. Ships with 3' leads.

Features and Benefits

- Digital circuitry precisely controls battery test loads to accurately determine battery conditions using OTC patented Micro Load test technology
  - Tests the battery both statically and dynamically with multiple fixed loads
  - Provides the most accurate test results
  - Less susceptible to erroneous results from remote or bad connections, surface charge and parasitic drains
- Accurately tests both Active Glass Mat (AGM) and flooded lead acid batteries (FLA)
- Tests vehicle starting and charging systems with minimal user interaction, automatically applies loads for accurate charging system tests
- Tests all 6 and 12 volt batteries with a 50-2000 CCA operating range
- Tests batteries down to 1 volt state of charge
- Temperature and low charge compensation
- Detects bad cells
- Scales: CCA, CA, AHR, MCA, JIS, DIN
- 4 x 20 backlit display shows CCA's, voltage, and good/bad status
- Over-molded enclosure with soft-touch keys
- Built-in infrared printer interface for remote printing (printer optional)
- Flash upgradeable memory in field
- Removable/auto-sensing leads (3' leads included in kits, optional 10' leads available)
- Print out has date/time stamp and user definable header and footer
- Optional amp clamps for current drain tests and starting/charging measurements (the only hand-held battery tester with this feature)
- Reverse polarity protection
- Hard carrying case
- 3 year warranty
- Made in U.S.

3168 SABRE HP Deluxe Kit

Includes SABRE HP, 3’ test leads, side-post terminal adapters, instruction manual, infrared wireless printer, and molded-plastic carrying case.

Accessories:
No. 3169 – Infrared wireless printer for use with No. 3167 (included with No. 3168)
No. 3172 – 10 foot test leads
No. 3173 – Low range amp probe (current drain tests)
No. 3174 – High range amp probe (starting/charging test)

800-533-6127  www.otctools.com
3185 Professional Battery Charging Starting System Analyzer Kit

The 3184 can also be purchased as a kit, 3185, which includes the tester, an infrared printer, a 12 ft. extension cable for in-cab testing, 2 voltmeter probes and a large, soft-sided carrying case. Each of these accessories is also available separately.

BCS System Analyzer Kit – Includes BCS System Analyzer, infrared printer, a 12 ft. extension cable for in-cab testing, 2 voltmeter probes, battery side and threaded post adapters, detachable leads, 9 volt battery, soft sided carrying case.
No. 3185 – BCS System Analyzer Kit

3184 Professional Battery Charging Starting System Analyzer

Made for the professional technician, the 3184 tests batteries and starting/charging systems faster than ever before. The BCS System Analyzer has an operating range of 50-2000 CCA’s and is able to store data in memory or remotely print out the results using an infrared printer interface. It also measures voltage and tests starting and charging systems at the push of a button.

Features and Benefits

- Utilizes cost effective conductance test technology for accurate testing at a value price point
- Quick 1-second initial results
- Tests charging and starting systems
- 50-2000 CCA range accurate to 5 CCA’s
- Tests 6V and 12V batteries
- Temperature and low charge compensation
- Detects and identifies loose leads
- Supports CCA, IEC, EN, BCI, and DIN scales
- 4 line, 20 character LCD display shows CCA’s, voltage, and good/bad status
- Displays results in 7 languages: English, French, Spanish, German, Italian, Dutch, Swedish
- Built-in infrared printer interface for remote printing
- Detachable cable leads

3183 Digital Battery Tester

Speed. Accuracy. Reliability. These are the cornerstones behind the technology in our digital battery testers. 3183 tests 12 volt batteries (125-1400 CCAs) and analyzes by measuring multiple parameters within the battery to deliver accurate results. A live voltmeter allows easy starting/charging system testing. Its bright, 4 digit LED display indicates the battery’s good/bad status, voltage, and available CCAs. It even compensates for cold temperatures.

Features and Benefits

- Utilizes cost effective conductance test technology for accurate testing at a value price point
- Quick 1-second initial results
- Tests 12V batteries
- Temperature and low charge compensation
- Detects and identifies loose leads
- Detects bad cells
- Surface charge warning
- Detects bad cells
- Displays results in 7 languages: English, French, Spanish, German, Italian, Dutch, Swedish
- Built-in infrared printer interface for remote printing
- Displays results in 7 languages: English, French, Spanish, German, Italian, Dutch, Swedish
- Built-in infrared printer interface for remote printing
- Detachable cable leads

Digital Battery Tester – Includes Digital Battery Tester and soft sided carrying case.
No. 3183 - Digital Battery Tester
Battery Load Testers

3182 130 Amp Digital Battery Load Tester

Produce more accurate results with this 130 amp digital battery load tester. The compact, lightweight design is rugged enough for everyday testing of 6 and 12 volt batteries.

Features and Benefits
- Large, easy to read display
- Unique clamp design
- Side clamp mount
- Comfortable, easy-to-grip, ergonomic handle
- Alternator test lead
- Ripple detection light
- 0-16 volt range
- Dual jaw load clamp design
- State of charge
- Battery load test
- Starter test
- Charging system test
- Alternator ripple test

3181 130 Amp Heavy-Duty Battery Load Tester

Applying an industry-leading 130 amp load, this ergonomically designed, heavy-duty battery tester provides accurate, reliable test results in just 10 seconds. It includes uniquely designed clamps for a positive grip on top and side post batteries and an extra large, easy-to-read display.

Features and Benefits
- 130 amp load capacity for accurate results
- 0-16 volt range
- Uniquely-designed clamps for both top and side post batteries
- Extra large display with zero adjust
- Works on both 6V and 12V batteries
- Ergonomic handle design
- Side tabs for on-tool clamp storage
- Back brackets for tool storage on wall or toolbox

3180 100 Amp Battery Load Tester

Tests batteries on or off the car in just 10 seconds. Convenient, portable size and easy-to-read scales.

Features and Benefits
- Heavy-duty copper-plated clamps
- 100 amp load capacity
- 0-16 volt range
- Load safety switch prevents arcing
- Heavy-duty, chrome-plated, ventilated steel case
- Works on both 6V and 12V batteries
- Ceramic insulators
- Determines state of charge, cranking and charging volts
- Determines good/bad status
- Extra large display with zero adjust
