

duo + PORTABLE
Pressure Cooker INDUCTION
COOKTOP

**A Fast, Healthy,
Green Way to Cook**

fast...

The Duo Pressure Cooker reduces cooking time up to 70%.

The Portable Induction Cooktop saves 50% of cooking time as a result of immediate flameless heat.

...leaving more time to enjoy your life.

safe...

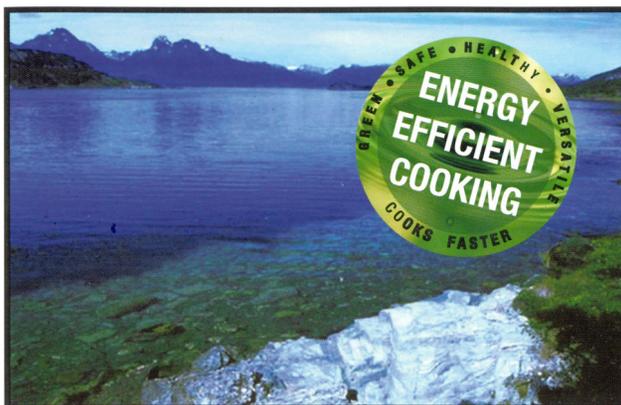

The Duo has three independent safety mechanisms making it a completely safe pressure cooker. The safety lock on the lid will not open until all pressure is released.

The Portable Induction Cooktop has no flame, so the surface stays cool to the touch. It also does not emit smoke or gas fumes. For extra peace of mind, it has an automatic safety shut off feature.

The combination makes it an extremely safe solution!

green...

The Portable Induction Cooktop uses 90% of the energy produced.

The Duo Pressure Cooker is 70% faster than traditional cookware. Less time spent cooking translates into less energy used.

ENERGY EFFICIENT COOKING that saves money and remains eco-friendly when used together.

versatile...

With the Duo Pressure Cooker you can cook a variety of your favorite recipes from appetizers, entrees to desserts.

Having a barbeque party and you need an extra cooking zone? Or a stylish center piece to keep food warm? The Portable Induction is great for indoor or outdoor entertaining.

Together they provide the maximum versatility to match your needs.

easy...

As easy as 123!!!

Load the ingredients into your Duo, close the lid and cook delicious meals.

Select desired power level on the Portable Induction Cooktop and enjoy the easy cooking experience.

Perfect match, making life and cooking EASY!!!
