Thank you for choosing Spyder Auto for your performance lighting needs. We value your business and appreciate your feedback. Make sure to like us on Facebook (www.facebook.com/spyderauto) and follow us on Instagram (@SpyderAuto) – we would love to hear from you! Each Spyder Auto product is unique and comes in a variety of different styles and colors. Spyder Autos halo rings are either CCFL (Cold Cathode Fluorescent Lighting) or LED (Light Emitting Diode). Our tail lights come in three different styles; full LED, LED parking, brake, turn, and Euro style. Some of our products use replaceable T10 LED bulbs, if these bulbs should fail please check your warranty information. If you are not longer covered by warranty these bulbs are readily available at all local Auto Parts stores. If for any reason you are having technical issues with your product please contact us via email; ***Techsupport@spyderauto.com***. Our technical support team will respond to you within 24 hours. If you have limited access to the internet please call us at 1(866)845-6608. When emailing or calling please have the following information readily available; part number, vehicle year, make, and model. This is to ensure that we will help you in a quick and efficient manner.

Thank you again for choosing Spyder Auto, your performance lighting specialists.
